

DigitalOcean Credit Program for Startup India Hub

DigitalOcean (DO) is the 2nd largest and fastest growing cloud computing platform in the world. With 12 datacenters across 8 regions throughout the world (including one in Bangalore), DigitalOcean has close to a million customers and 50,000+ teams who seamlessly deploy, manage and scale their applications on the DO platform.

DigitalOcean is happy to partner with Startup India Hub to offer a \$500 one-year credit to any startup that is recognized by DIPP and a registered member of the Startup India Hub web portal.

About DigitalOcean (DO)

The features of DigitalOcean that make it a natural choice for startups and businesses are:

- Powerful Hardware - All DO cloud servers are built on powerful Hex Core machines with dedicated ECC Ram and RAID SSD storage. SSD hard drives will improve performance of your site dramatically, from faster disk i/o performance
- Tier-1 Bandwidth - All servers come with 1Gb/sec. network interface.
- High Memory and CPU Droplet plans offering larger amounts of RAM, ideal for databases and in-memory caching.
- Highly available and persistent Block storage that can be attached to a droplet. Volumes up to 16TB and the ability to attach multiple volumes to a Droplet.
- Load Balancers to enable high availability and Monitoring to manage your infrastructure's performance effectively.
- Cloud Firewalls to easily secure your infrastructure and define what services are visible on your Droplets.
- Simple API – A simple name spaced API that provides complete control over your virtual private servers
- www.digitalocean.com/community/tutorials is the #1 resource for developers when they are looking for new technical tutorials for new technology (not just related to DigitalOcean)
- Free 24/7 access to Customer support team
- Straight-forward & transparent pricing
- 99.99% uptime

Offer for startups registered on Startup India Hub

All DIPP recognized startups will have access to the following offers from DigitalOcean.

1) **Cloud Infrastructure Credit:** A \$500 one-time cloud credit for all startups recognized by DIPP.

- The credits will have a one-year life-span, expiring beyond that point.
- Companies are only eligible for one credit, and cannot utilize multiple credits even if the company uses multiple accounts.
- For the \$500 credit, verification of eligibility includes successfully matching the billing address and email on file with DigitalOcean to that of the legal address and official email for the company on DIPP/Startup India Hub records.
- These credits will be valid only for those companies who have not availed DigitalOcean credits earlier through any other partner or channel
- DigitalOcean reserves the right to reassess and modify the program any time

2) Premier Technical Support & Consultation

- Free access to support on infrastructure related technical queries
- Free access to virtual office hours for consultation on platform and architecture queries to support scaling and growth

3) Training

- Free access to workshops, bootcamps, webinars and master classes organized by DigitalOcean on technical and non-technical topics of interest to the startup and developer community

Application Form

Hatch is DigitalOcean's global incubator program designed to support startups as they launch and scale. This includes access to DigitalOcean's cloud for 12 months, free technical training, mentorship, priority support, and an opportunity to connect with other startups, accelerators, and investors.

ACCOUNT CREATION:

Prior to filling the form, please note that you are required to create a DigitalOcean account with your official email address and the account details are to be shared below to enable us to apply the credits. You can sign up for a DigitalOcean account @ <https://cloud.digitalocean.com/registrations/new>

APPLYING FOR CREDITS:

To avail the credits, please fill out the form below. Once you submit the application, we will validate the information with Startup India Hub and subject to meeting the eligibility criteria (outlined in the link below), verified startups will receive the final instruction to redeem credits within two weeks of applying.
