	Performance	The performance guarantee as per clause 2.18 of the RFP shall be 10%

## Selecting a Zone

The bidders can list the preference of zones for conducting the programme. The preferences can be ranked from 1 to 5, 1 being the most preferred zone. Single technical and financial bid must be submitted and will be applicable for all zones. Bidders are suggested to mention their implementation methodology in their presentations for different zones.

## Evaluation Methodology

Bidder with the highest combined score (technical and financial) will be given an option to select the first zone. Subsequently, the second highest scoring bidder will be provided an option to choose from rest of the zones. In case the second bidder has provided a single zone and the same is chosen by the first bidder; zone will be given to the first bidder.

Example:

Bidders	Zone preference	Score - Technical + Financial
A	North, South, East	90
B	North	88
C	North East, South, West	88
D	West, East, North	85

Case 1:

- Bidder A will be given an option to select the zone. If the bidder selects North zone the same will be allocated to him.
- Bidder C will be provided an option to choose from the remaining zones i.e South, West and North East and similarly the next bidder will be provided an option to choose from the remaining zones.

Case 2:

- In case a zone is not chosen by any of the agencies then the same will be open to the agencies which have not been onboarded for any zone. The preference will be given in the order of the total score.
- Assuming North East zone hasn't been selected by any bidder and no agency (as mentioned above) is interested in choosing the North East zone the option will then be given to onboarded agencies for choosing this as additional zone.
