Benefits Of DPIIT Recognition

1. INTELLECTUAL PROPERTY RIGHTS (IPR)

To promote awareness and adoption of IPRs by Startups and facilitate them in protecting and commercialising the IPRs, Startup India provides access to high-quality intellectual property services and resources, including:

**Fast-tracking of startup patent applications**

The patent application of startups is fast-tracked for examination and disposal. The process is much faster for recognised Startups.

**Panel of facilitators to assist in IP applications**

Facilitators are responsible for providing general advisory on different IPRs, and information on protecting and promoting IPRs in other countries. Central Government bears the entire fees of the facilitators for any number of patents, trademark or designs, and startups only bear the cost of the statutory fees payable.

**Rebate on Filing of application**

Startups are provided with an 80% rebate in filing of patents vis-a-vis other companies, bringing down the cost from INR 8,000 to INR 1,600. This helps them cut down on costs in their early years. 50% rebate is also provided in filing of trademarks vis-a-vis other companies decreasing the cost from INR 10,000 to INR 5,000.
