<ul style="list-style-type: none"> • COVID-19 has seen a surge in misinformation on social media. Right from fake news related to the treatment/cure of the disease to various conspiracy theories is today impacting the social and economic wellbeing. • This misinformation surge needs to be fought with an equally scalable, robust, and fast solution. • UnFound AI provides that capability using artificial intelligence, natural language processing, and machine learning. • The product is live and used by journalists already.
