

KNOW YOUR JUDGE: VINAYAK GODSE, DSCI

November 28, 2018

VINAYAK GODSE, VICE PRESIDENT, DATA SECURITY COUNCIL OF INDIA

Mr. Vinayak Godse is a Senior Director at Data Security Council of India (DSCI). He manages DSCI programs, which include:

- Security and privacy education & awareness
- Policy advocacy – engaging governments and international bodies
- Content research and studies
- Building network of security professionals
- Cyber lab Initiative for capacity building of law enforcement agencies
- Innovation, digitization, data economy and data privacy
- National security, public policies and legal structures
- Data flows, international trade and international norms
- Cyber security industry building

He is the principal author of the DSCI security framework and DSCI privacy framework. He has engaged with industry, regulatory bodies, and international institutions on matters related to cyber security policy, international cooperation and capacity building. In this capacity, he also represents the Indian industry in bilateral and multilateral initiatives of the Government of India in the area of cyber security and privacy.

Vinayak has over 24 years of experience in the areas of telecom switching, intelligence network, internet infrastructure, mobile telephony, information security and privacy. Prior joining to DSCI, he worked with Tata Consulting Services (TCS) in its Global Consulting Practice, which advises global organizations on matters related security and privacy. He holds a bachelor's degree in electronic engineering.

Who is a good Innovator

Good innovator for me is one who appeals to desires of human society, who not only makes his or her ideas feasible but builds entire ecosystem of people, capabilities, and structures around them. The innovator makes sure that his dream is viable not only for him or her but also for the people and organizations in the ecosystem. Hence, Steve Jobs is a good innovator for me.
